Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-4 and 7-10 are rejected under 35 U.S.C. 102(e) as being anticipated by Chase.

Re claim 1, Chase discloses a front end part (10) of an engine hood of a vehicle, the front end part being made of a deformable plastics material (column 6, lines 46-67) and comprising means for fixing said front end part to the engine hood (20) so as to extend the hood towards the front of the vehicle, in such a manner that the end part accompanies the hood when it is opened and integrating at least a portion of the front light units (12) of the vehicle.

Re claim 2, the front end part forms at least a part of the shield of the vehicle.

Re claim 4, the front end part includes a strength member (20) forming the means for fixing the front end part to the hood.

Re claim 7, the front end part includes an air intake (the space between the grille slats 42) forming at least a portion of a radiator grille.

Re claim 8, Chase discloses a motor vehicle front face including a hood (14), a bumper (16) and a front end part (10).

Art Unit: 3612

Re claim 9, the front end part forms at least a portion of a shield of the bumper.

Re claim 10, the bumper includes a spoiler (16) disposed beneath the front end part and in that slamming clearance is provided between the front end part and the spoiler.

Allowable Subject Matter

3. Claims 5 and 6 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments filed 10/12/04 have been fully considered but they are not persuasive.

Applicant's argument is that the headlamps shown by the Chase reference are a whole element of the vehicle structure, even without the grill and therefore the grill does not integrate at least a portion of the headlamps of the vehicle. The Examiner respectfully disagrees.

While the grill and headlamps of Chase are not related in terms of their individual functions (the headlamps will work without the grill and vice versa), the grill does serve aesthetically to integrate the headlamps into the overall structure of the vehicle hood. Without the grill, the sides of the headlamps would be open to a gaping hole. The grill serves to aesthetically integrate the side of the headlamps into the overall shape of the hood.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
